Gutter Cleaning !

If you fail to maintain your guttering properly you could be putting your property at risk. If your gutter is blocked water can run into walls & cause no end of problems. It is recommended by the Building Establishment that gutters are inspected / cleared at least once if not twice a year, ignoring a problem can result in serious damage to your property.

HIGH REACH VAC

3000 watt of power info@fisherscleaning.com

www.fisherscleaning.com

Our gutter cleaning service is carried out using a high reach vacuuming system. There is no mess as it sucks gutters clean using a powerful wet & dry vacuum system. The use of pole mounted vacuums means that we are able to reach up to 12 meters high from the safety of the ground. The use of this impressive system allows us to clean guttering's, gullies & downpipes for a fraction of the cost of hiring scaffolding or platforms and eliminates the danger of using ladders .
