FOAM CLEANERS

TARGET

Foam Cleaner

- Fully formulated, with water softening system.
- Effective in all water conditions.
- Stable foam.
- Low alkali level & safe on soft metals.
- Fast & effective removal of fat & oil.

TARGET EXTRA

Foam Cleaner

- Chlorinated alkali detergent.
- Produces a dry stable foam.
- Fast & effective removal of fat & protein.
- Ideal for all meat processing applications.
- Easy rinsing.
- Not for use on soft metals.

TARGET POWERFOAM

Foam Cleaner

- Highly effective caustic based product.
- Stable foam.
- Effective carbon & polymerised fat removal.
- Ideal for burnt on carbon removal.
- Fast acting.
- High level of alkali.

TARGET ACID FOAM

Foaming descaler

- Phosphoric acid based foaming descaler.
- Stable dry foam.
- Ideal for removal of mineral scale & bile staining on metal surfaces.
- Brightening effect on stainless steel.
- Not for use on soft metals.

Evans Vanodine International plc

OTHER HYGIENE PRODUCTS

APEX

Manual cleaning & disinfecting

- Chlorinated, mildly alkaline detergent powder.
- Effective disinfection. Passes EN1276.
- Ideal for manual use.
- Fully formulated with softening system & wetting agent.
- Free rinsing.

PERADOX

Acidic disinfectant

- Fast acting disinfectant containing 5% peracetic acid.
- For terminal disinfection of injection equipment, fogging of building areas & complex equipment.
- Kills bacteria within 15 seconds (Passes EN 1656).
- Suitable in all water types.

VANOQUAT

Cleaning & disinfecting

- Formulated quaternary based disinfectant with wetting agent.
- For all food contact surfaces.
- Contains wetting agents & water conditioning system.
- Passes EN 1276 & EN 1656 - wide spectrum of microbiological activity.
- Defra & Cefas approved disinfectant.

Alcohol based hand disinfectant

- Hand sanitiser; disinfects skin.
- Quickly evaporates from hands.
- Passes EN 1276 with a 30 second contact time.
- Passes EN 1500.
- Contains emollients for skin conditioning.

ALU SAFE TRAY WASH

Tray Cleaner

- Non caustic, low foaming detergent for automatic traywashing.
- Will remove grease & carbon deposits from caustic sensitive surfaces.
- Suitable for all water conditions.

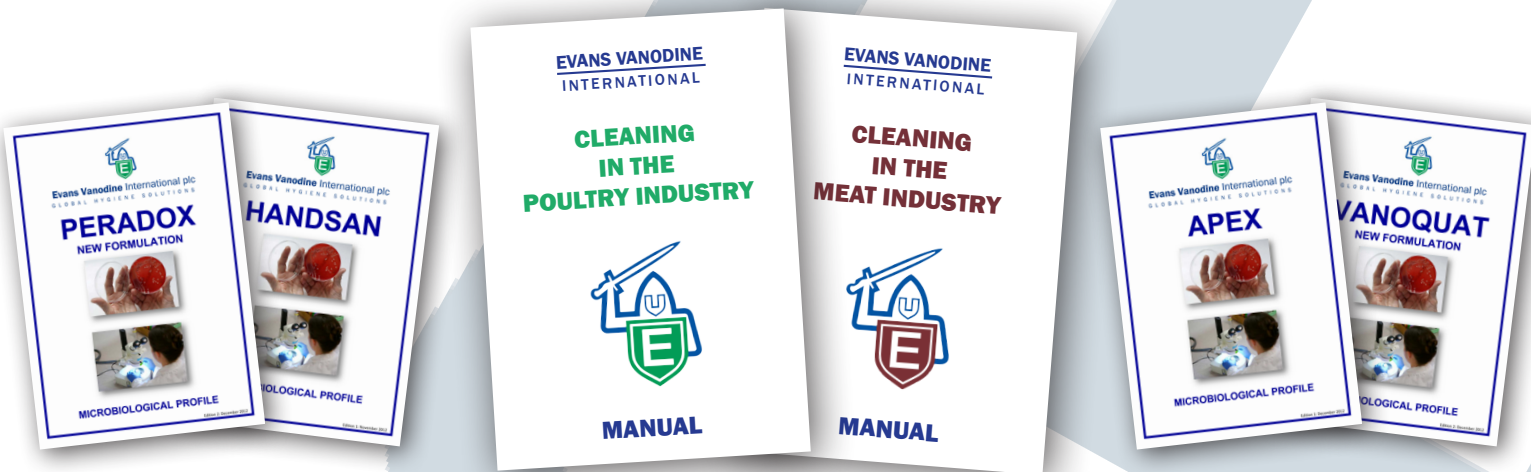

Evans Technical Support and Advice

In addition to the supply of a complete range of chemical disinfection products EVANS VANODINE INTERNATIONAL PLC offers a variety of training and technical manuals and provides information and instructions for your staff, explaining the most up to date and efficient methods of cleaning and disinfection in the food processing industry.

Your local EVANS VANODINE representatives and members of the international sales team are available to answer your questions and will offer you the technical support you expect from an international supplier.

Safety data sheets are available for all Evans Vanodine cleaning and disinfection products which can be supplied upon request.

Technical Manuals & Microbiological Profiles

Evans Vanodine International plc

Established in 1919, Evans Vanodine International PLC is based in Preston, Lancashire, where the company's modern 100,000 sq. ft. factory includes extensive manufacturing and warehousing facilities and stands on a site of 5 acres.

This has now been updated to BS EN ISO 9001:2000

Working within the company's modern Research, Quality Assurance and Microbiology Laboratories, highly qualified and experienced staff have the most advanced analytical instrumentation at their disposal, which contributed to the Microbiology Laboratory being awarded a national accreditation (UKAS) for Disinfectant Testing Cert. No. 1108

Dedication to total quality management was recognised in 1990, when the company was awarded British Standard 5750 Part 2: 1987, Certificate No. 09535
