HAND CARE INTRODUCTION

THE FIRST IMPRESSION

The first and lasting impression any visitor, customer or employee receives on entering a washroom should be that it is clean, well maintained and with good hand washing and drying facilities.

WHY IS CLEANLINESS IMPORTANT?

One of the major causes of cross contamination and the spread of infection is people not washing their hands when they should, not washing them in the correct way or not drying them thoroughly. This has a huge impact on the economy, when people become ill and subsequently have to take time off work or children are unable to attend school. It also puts tremendous pressure on Doctors' surgeries and the National Health Service, as vulnerable people such as children and the elderly are likely to become very ill and potentially could be hospitalised.

CHOOSING THE RIGHT PRODUCT

Living in an environment where bacteria responsible for contagious diseases is becoming ever more resilient to modern antibiotics, hand washing is one of the most important procedures to protect yourself and others from infection. It is therefore paramount that the hand washing product and system you choose for your particular workplace are correct and suitable for your environment.

OUR CERTIFICATIONS

Evans Vanodine have a vast amount of experience in manufacturing safe and cost effective products. Our hand care products are part of an extensive range of cleaning and hygiene chemicals, all manufactured to exacting standards. Evans Vanodine hand washing products are manufactured using cosmetic grade ingredients and fully comply with **The Cosmetic Products Regulation (1123/2009/EC)**. Evans Vanodine is an **ISO 9001** and **ISO 14001** registered company. These certifications provide customers with confidence that we have set defined standards in research, manufacture and service.

LOW IMPACT ON THE ENVIRONMENT

Evans Vanodine have a unique system for identifying which products have a low impact on the environment, called the W.E.I.R. System. The products in this brochure which achieve this certification are marked with a Green Tick. For further details please visit www.evansgreentick.com

HELP & ASSISTANCE

This guide is one in a series which has been produced to help users of Evans Vanodine products attain the best possible results. We realise there are various situations and circumstances that determine which products are the most suitable and we hope this guide is of benefit to you and helps you to choose the correct product and dispensing system. If you require any further assistance please contact your local Evans Distributor or our Sales Department.

HAND WASHING FACTS

- Hand washing can help to prevent the spread of viruses
- Up to half of all men & women fail to wash their hands after they have been to the toilet
- The number of germs on your fingertips could double after you use the toilet
- A third of people do not use soap when washing their hands
- Damp hands spread 1,000 times more germs than dry hands
- We each have millions of bacteria on our skin
- Clean hands are all about staying healthy and keeping everybody around you healthy

GENERAL ADVICE

- Always wash your hands after using the toilet
- Always wash your hands before eating
- Always wash your hands after working with animals
- Always wash your hands if they are visibly dirty
- Always wash your hands after handling raw meat
- Always wash your hands after handling rubbish
- Always wash your hands after contact with someone who is ill
- Always dry your hands thoroughly

SKIN CARE RANGE

ABOUT THE RANGE

Our skin care range has been developed to satisfy the extremely high standards essential in today's modern washroom. All products are formulated using fine grade ingredients and manufactured under a procedure which complies with **The Cosmetic Products Regulation (123/2009/EC)**. Our hand wash products are mild and gentle, yet clean thoroughly, providing a rich creamy lather with added moisturiser to help keep skin soft, supple and smooth.

- Contains emollients for extra skin protection
- Packed in 6 x 500ml, 6 x 1 litre & 2 x 5 litre

CAREHANDS

Barrier & moisturising cream

- Multi purpose, non greasy hand cream
- Provides skin protection in wet & dry working conditions
- Suitable for use under rubber gloves as a secondary line of protection
- Unperfumed, ideal for use in kitchens & food preparation areas
- Highly recommended for use in all types of industry
- Packed in 6 x 500ml & 2 x 5 litre

SKIN PROTECTION AT WORK

People in industry who work mainly with their hands are often at risk of dry, itchy skin conditions, such as dermatitis, and may require a barrier cream which will protect against water and general soiling.

CAREHANDS barrier and moisturising cream works by forming a protective layer over the skin that locks moisture in and helps keep irritants out.

CAREHANDS is unperfumed and gives protection in wet and dry working conditions. It can be used anywhere from kitchens and food preparation areas to all types of general industry including garages, engineering workshops, printers, warehouses, transport companies, gardening contractors and farms. It is highly recommended for use under rubber gloves as a secondary line of protection.

BACTERICIDAL SOAP

TRIGON® FOAM PLUS

Bactericidal hand wash

- High quality, bactericidal, foaming hand wash
- Passes **EN 1499**; tested on volunteers hands
- Passes **EN 13727**. Passes **EN 1276**; kills 99.999% of bacteria
- Helps reduce the risk of cross contamination
- Gentle to skin, ideal when frequent hand washing is necessary
- Contains ingredients which moisturise & help keep skin conditioned
- Complies with **The Cosmetic Products Regulation (123/2009/EC)**
- Supplied in a sealed cartridge for use in Evans Evolve Foam Soap Dispenser
- Packed in 6 x 1 litre cartridge

TRIGON® FOAM PLUS is a highly effective, unperfumed, bactericidal hand wash which generates a rich creamy lather to remove visible soiling and simultaneously kill a wide range of bacteria. It is very cost effective and produces over 550 washes per 1 litre cartridge when used at the recommended dose to pass EN1499.

Tested by an independent laboratory on volunteers' hands using test method EN 1499.

Tested by our UKAS accredited laboratory using test method EN 13727 and EN 1276.

TRIGON® FOAM PLUS is the most recent addition to the Evans Vanodine Skin Care range, developed by our highly qualified and experienced product development chemists and microbiologists.

Evans Vanodine have over 30 years experience in developing products containing chlorhexidine digluconate. This highly effective bactericide is widely used in oral hygiene products and for skin applications such as surgical scrubs and pre-operative skin antiseptics.

The unique combination of surfactants, emollients and chlorhexidine digluconate in TRIGON® FOAM PLUS provides an effective bactericidal hand wash with excellent skin conditioning properties.

TRIGON® FOAM PLUS is recommended for use in catering, food preparation and processing areas, healthcare, nursing homes and wherever hand hygiene is of the utmost importance. It is also suitable for use in veterinary practices and on the farm.

The EVANS EVOLVE dispenser is quick and easy to re-load with the TRIGON® FOAM PLUS cartridge and will deliver a pleasing to use, gentle foam. This instant foam spreads easily across the hands and rinses away to leave the hands clean and disinfected.

EVOLVE DISPENSER & CARTRIDGES

EVANS EVOLVE CARTRIDGE DISPENSER

A modern designed soap dispenser, to complement any decor. The smooth ergonomic design minimises dirt traps, makes it easy to keep clean and most importantly is strong and very durable.

There is a choice of easy, accurate and controllable dispensing systems. These include a refillable reservoir and a pre filled disposable cartridge with a unique connecting design which only allows an Evans cartridge to be used in the Evolve dispenser.

The cartridges are sealed to prevent contamination and designed to make re-loading your dispenser quick and easy. Dispensers and cartridges are available for liquid, foam mousse or alcohol hand rub.

HOW TO REPLACE CARTRIDGE

Open dispenser and dispose of the old cartridge.
Remove red transport cap.
Insert new cartridge with the label facing towards the back.
Push down on the cartridge to click into place and pierce the seal.
Close dispenser.

- Can be affixed to a wall for greater stability
- To be used in conjunction with a pelican pump to provide an economical dispensing system
- Product code: D014AEV

The smart stainless steel wall bracket complements any existing fittings

CHILDREN'S HANDWASHING

Evans Vanodine have introduced their own unique characters to help teach children the importance of washing their hands.

Edward and Emily along with 6 handwashing related germs have been designed to appeal to children and make hand washing both fun and educational.

Stickers are available for personalising your Evans Evolve soap dispenser and 'Well Done' stickers to give out to children once they have taken part in a hand washing lesson. We also provide a laminated washroom poster to show children the correct way to wash their hands.

Edward and Emily have their very own website where children and teachers can download support literature. Our handwashing lesson plan and support materials have been used in primary schools and have proven to be highly successful.

Literature available includes a lesson plan, posters, quizzes, games and colouring sheets. Edward and Emily have their own facebook and twitter pages where finished pictures can be uploaded and enjoyed by everyone.
